# WE CONNECT PEOPLE, NOT THINGS

Poly (formerly Polycom and Plantronics) is the global communications company that powers authentic human connection and collaboration with end-to-end solutions.

Committed to make collaboration easy for you, we have a long-term partnership with Microsoft to ensure you can achieve more. Our high-quality headsets, voice, video, and video-interop solutions work simply and flexibly with Microsoft Teams, creating a one-stop shop for all your organization's personal and group collaboration device needs as you make the journey to Microsoft Teams.

Poly is finding new ways to inject meaningful human-to-human cues into audio and video communication to replicate the face-to-face experience. To build intimacy. To break walls and span distance. One to one. One to many. Many to many.

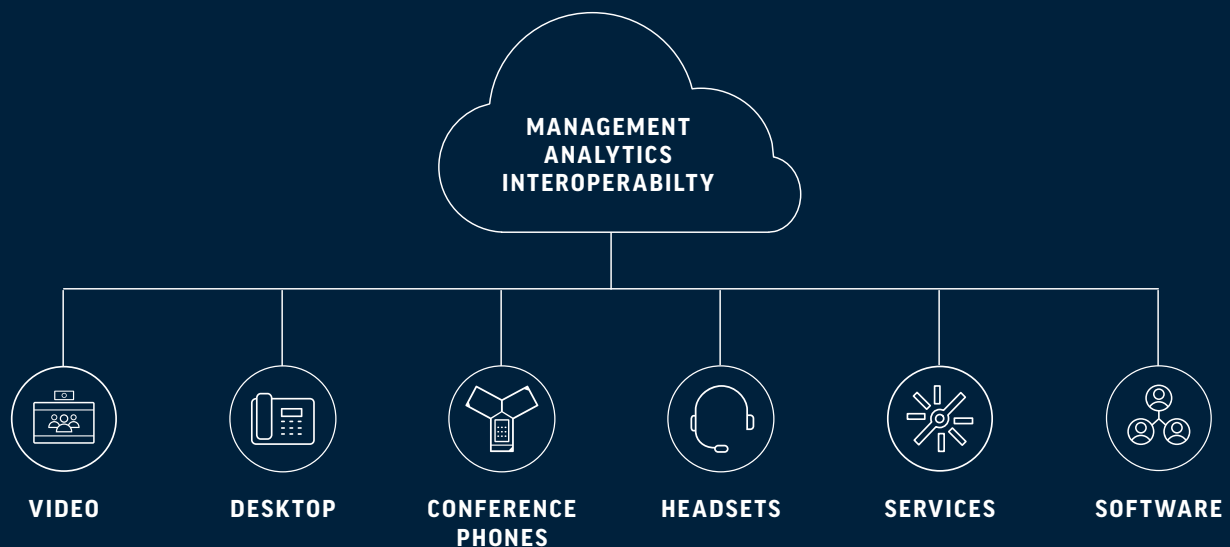

Poly solutions protect your investments by enabling existing video and voice conferencing equipment to work easily with your current and future Microsoft collaboration platforms. Our Poly Professional Services team provides you with the expertise to plan, deploy, operate and support your Microsoft solution environment.

## OUR VALUE TO OUR CUSTOMERS AND PARTNERS

- **Business leaders**—More ways to improve communication and collaboration, and thus improve productivity.
- **IT managers**—More insights and interoperability that help anticipate maintenance needs, solve problems remotely, and reveal the ways users interact with their systems and work environment.
- **Business partners**—More opportunities as we work together to give our customers more of what they want.

## BEST COLLABORATION EXPERIENCE—END-TO-END

- Everywhere the communications and collaboration clouds touch the individual, we are there to provide the most human experience.
- We help you with our expertise and knowledge so you know what to focus on to ensure your success.
- We provide the management insights built on data and analytics to make it all work better, smarter, easier.

THE POWER OF MANY

One to one. One to many. Many to many.

## POLY STUDIO

The USB video bar built for  
small rooms and big ideas.

# ACHIEVE MORE WITH END-TO-END SOLUTIONS FOR MICROSOFT TEAMS & SKYPE FOR BUSINESS

## VIDEO

Enhance your customers' meetings with HD video and content collaboration solutions designed specifically for Skype for Business and Microsoft Teams meeting rooms.

The **Poly Solution Bundles with HP and Lenovo Microsoft Teams Rooms** offer familiar Microsoft Teams experience with the legendary audio and video quality for rooms of any size.

Poly offers a variety of room solutions and camera options, such as **Polycom EagleEye Cube USB**, **Polycom EagleEye IV USB**, and **Polycom EagleEye Director II**, and the **Poly Studio**, which delivers legendary audio and video capabilities in an easy-to-use USB bar.

## VIDEO INTEROPERABILITY

**Polycom RealConnect** for Microsoft Teams or Skype for Business provides video interoperability with standards-based video endpoints such as Polycom and Cisco, using Microsoft Outlook for scheduling, and enabling one-click join functionality. Now available as a cloud service or through on-premises collaboration infrastructure.

## SOFTWARE

Boost business results when you add a software solution to monitor and maintain your devices and headsets. Drive the adoption of new initiatives, troubleshoot issues, and manage inventory more effectively.

Add **Plantronics Manager Pro SaaS** or **Polycom Device Management Service** for access to actionable insights to improve business processes, employee performance, and compliance.

## SERVICES

The Polycom Professional Services team provides you with the expertise to effectively plan, deploy, operate, and support your Microsoft solution environment. For global organizations, the forthcoming Managed Services for Microsoft Teams will provide a one-stop shop experience to streamline the move to Microsoft Teams.
